

Ultimate Rugged Mobile Computer

- Rapid working process through the latest OS and powerful CPU
- Fast and stable communication network
- Powerful durability in the harshest environments
- Quick data capturing through high performing barcode scanner
- Long-lasting battery power
- Mobile device management software eco-system BOS[™] support

Key Features

Best in enterprise-class Qualcomm Snapdragon[™] 660 (Octa-Core, 2.2GHz) and Android 10; Upgradeable to Android 14 OS increase work efficiency, supporting users' work process in prompt and stable ways. Users can switch their apps on the display quickly by Universal Flash Storage (UFS) memory which increases the speed of operation.

Fast, stable communication network support VX500 provides superior voice quality, stable connectivity, and clear communication based on Bluebird's innovative technology. The device also provides improved Wi-Fi speed and broader range of networking with applying MU-MIMO technology.

Powerful durability in the harshest environments Usability-proven in touch and harsh environments Bluebird TankSmith® Technology and Corning® Gorilla® Glass 5 enhance durability of the device meeting 2.0m of drop spec MIL-STD 810 (with Rugged Boot) and IP68 Sealing rate. VX500 provides flexible multitouch including glove, wet, and stylus as well as the best outdoor readability that you can see the display under the very bright sunlight.

High performance barcode scanner for quick data capture The latest scan engine provides superior wide range up to 24-inch/60cm for 1D/2D barcodes, labels, and documents. Workers can scan even poor quality, damaged and dirty barcodes. It delivers lightning fast barcode scan with motion tolerance providing fast scan on pressing the scan button. Large sweet spot makes workers can scan easily with point-and-shoot simplicity.

Long-lasting battery power (Hotswap support) User replaceable battery with high capacity of 4350mAh gets you free from worrying about re-charge. As hotswappable battery it supports work continuity even when unexpectedly detached and prevents data loss. With Bluebird BOS™ (Business Optimizing Solution) Power Manager solution, it enables to manage battery life status which delivers replacement period for aged batteries.

Mobile device management software eco-system BOS™ (Business Optimizing Solution) Bluebird BOS™ (Business Optimizing Solutions) provides various features optimized for use of enterprise device from app development, device deployment, to business performance management as an integrated solution system. With BOS™ you can implement integrated management for VX500 in an efficient way.
